EDUCATION

B.E CSE(AIML) - Sri Eshwar College of Engineering || **CGPA:9.13** **2023-2027**
HSC - Amrita Vidyalayam || **86.6%** **2021-2023**
SSLC - Vivek Vidya Mandir || **94%** **2020-2021**

INTERNSHIP

G- Zoft Tech Solutions – MERN **2025**
Developed dynamic and scalable web applications using the MERN stack, focusing on responsive UI/UX and real-time data processing. Gained hands-on experience in full-stack development, integrating AI-driven insights and cloud-based solutions.

PROJECTS

LinguaLens- AI-Powered AR for Accessibility & Live Translation : **2025**
An advanced assistive technology that enhances communication for individuals with hearing impairments and non-native speakers using Augmented Reality (AR) and Automatic Speech Recognition (ASR).
LinguaLens transcribes spoken words into real-time text displayed on AR glasses, ensuring accessibility for students with hearing disabilities.It provides **live translation** for non-native speakers, **converting speech** into their preferred language instantly. Key features include **noise filtering**, **multi-language support**, and seamless AR integration.

WanderWise (Holiday Planner) : **2025**
A smart travel planning web application that personalizes itineraries and enhances travel experiences using AI.
WanderWise is an AI-powered holiday where users can input their destination, number of days, and transportation preferences, and the system generates optimized travel plans, including suggested attractions, accommodations, and nearby amenities. It includes **real-time weather updates**, **natural disaster alerts**, **fuel station locators**, and **local cuisine recommendations**.

Voice Vision(Generative AI) : **2024**
An innovative software solution that combines advanced voice recognition, NLP, and CV technologies to enhance accessibility for visually impaired users.
The goal of this project is to create an intuitive, accessible tool tailored for visually impaired users, helping them interact more seamlessly with the world around them. By leveraging generative AI, this software interprets voice commands, translates them into actionable outputs, and describe surroundings or objects in real-time. This project's unique blend of voice and visual processing aims to **enhance autonomy and accessibility**, offering a life-changing resource for visually impaired individuals.

Hotel Management : **2024**
Developed a fully integrated hotel management system to streamline operations and enhance guest experience.
This system was built with SQL for backend database management and Tkinter in Python for a user-friendly graphical user interface (GUI). Key features included **room booking**, **guest management**, **billing**, and detailed reporting functions. The booking module allowed efficient management of room reservations.

CERTIFICATIONS

Foundations of Prompt Engineering | **AWS** **2025**
Data Visualisation | **Tata** **2025**
Data Science | **IBM** **2025**
Intro to Machine Learning | **Kaggle** **2024**
The Complete Introduction to C++ Programming | **Udemy** **2024**
Power BI for Beginners | **Simplilearn** **2024**

ACHIEVEMENTS

Winner of **Techathon 2k'25 (24 hrs hackathon)** **2025**
Winner of **Hack The Horizon (24 hrs hackathon)** **2025**
Secured Second place in **30 hours State level Hackathon** **2025**
Secured First place in **Project Expo at Karpagam college of Engineering** **2025**
Secured First place in **Prompt Wizard(Prompt Engineering domain) at Karpagam college of Engineering** **2025**
Secured First place in **Paper Presentation at Karpagam college of Engineering** **2025**
Shortlisted in **National level Hackathon** to Final level(77th position among 1500+ teams) **2024**

CODING PROFILES

Leetcode : **Solved 350+ problems | Max Rating : 1,581 | Global rank : 247,526** | link
Hacker Rank : **5 Star C, 4 Star Python, 2 Star Problem Solving** | link
Codechef : **Problem Solver - Bronze Badge** | link
Skill Rack : **Solved 200+ problems | Received 2 certificates | 45+ Bronzes** | link

SKILLS

Programming - C | C++ | R(Beginner) | Python | Java
Core Concepts - DSA | DBMS | OOP
Web Technologies - HTML | CSS | JavaScript | React | Node.js | Express.js
Database - MySQL | MongoDB
Data Science & Analysis Libraries - Pandas | NumPy | Seaborn | Matplotlib
Data Visualization - Matplotlib | Seaborn | Power BI
Tools - VSCode | Canva | Excel | PowerPoint | Jupyter Notebook | Power BI | GitHub | Git | Augmented and Virtual Reality
